Starchy Food Necessary For Energy

But many persons cannot digest starch as found in ordinary food—potatoes, white bread, etc.

In making

Grape-Nuts

from wheat and barley, the starch parts of the grains, needed for body energy, is so thoroughly dextrinized by long baking (partially pre-digested) that the time of digestion is reduced—generally to about one hour.

(White bread about 3½ hrs.)

Many forms of stomach trouble disappear when proper, easily digested food is used.

KIDNEYS SELDOM FREE FROM POISON

Clean Them Out and Backache, Stitches and Bladder Troubles Go.

It's mighty close to the truth to say that there are ten thousand apparently healthy people in America today, who will have Bright's disease, dropsy or some form of kidney disease within two months. If you have backache, or the slightest suggestion of backache, don't take chances. Get a 50 cent bottle of Thompson's Backache and give your kidneys a thorough cleaning. They probably need it. If they don't, Thompson's Backache is a good tonic anyway and will do you good.

Thompson's Backache is guaranteed to clean out the kidneys, bladder and prostate, to cure kidney or bladder disease, no matter how distressing, or how long it has been on. It is a quick, powerful, and reliable remedy. The very first dose will make your sick kidneys feel better, but bear this in mind when you consider the present, Thompson's Backache and Mandrake Pills should also be used. 25c—Adv.

THESPIANS SCORE HIT

State College Men Produce Musical Comedy in This Style.

The Thespian of State College produced their 1914 musical comedy "The Innocents" in the lecture hall last night to a good sized and very appreciative house. The show was given in spite of the fact that the boys worked hard and deserved every bit of the appreciation that was accorded them.

"The Innocents" was originally given by the Mask and Wig Club of the University of Pennsylvania, but it was brightened up for the use of the Thespian and songs arranged to some of the best music from current light operas. The situations are mighty funny and the players got all that could be gotten out of them.

Especially graceful were the 12 boys who played girl parts. Their dancing hampered as they were by tight skirts, was extremely well done. All of the principals were good and the singing chorus was excellent.

The boys were accorded such a welcome in Fayette county where they played Uniontown and Connellsville that they expressed a desire to return next season. They left this morning for Clearfield, where they play tonight. After that they show at Tyrone and Bellefonte, returning to State College Monday.

SAYS SULPHUR DRIVES ECZEMA FROM THE SKIN

Use Like Cold Cream to In-
stantly Stop Itching and
Clear the Skin.

Sulphur, says a renowned dermatologist, just common cold-sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of cold-sulphur cream and apply it to the irritated parts the same as you would any cold cream.

For many years common cold-sulphur has occupied a secure position in the practice of dermatology and continues effective by reason of its parasite-destroying property. It is not only parasiticide, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subdue the angry itching and irritation and heal the Eczema right up and it is often years later before any eruption again appears on the skin.—Adv.

TO PUT ON FLESH AND INCREASE WEIGHT

A Physician's Advice.

Most thin people eat from four to six pounds of good solid fat-making food every day, and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. (It is all right to say that this is the nature of the individual. It isn't Nature's way at all.)

This folks say this because their powers of assimilation are defective. They just don't absorb enough of the food they eat to maintain life and give balance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single ounce. These folks need a medicine that will help them absorb their food just as it is, and make it their own. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless, yet wonderfully effective, and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.—Adv.

SMITHFIELD.

SMITHFIELD, April 16.—Fannie,
wife of Anderson Wichter, who died
at their home near the borough limits
in Georges township Sunday afternoon,
was buried in the Baptist cemetery
on Wednesday. Mrs. Wichter
was born in slavery in old Virginia.
She was the mother of 18 children,
12 of whom with her husband survive.
Her age is not definitely known
but she must have been well up in
the seventies. She remembered scenes
and incidents of the Civil War that
came under her notice in her old Vir-
ginia home.

Fred Pulcher is home from the Uni-
versity of West Virginia for the East-
er vacation.

his name printed on the ballot for
the nomination for assembly on the

As a barefoot organ the News is earning its wages. The action of Michael J. Ryan in announcing as a candidate at the primaries for a Democratic nomination in the Congressional district of Pennsylvania, against Vance McCortrick, the barefoot Congressman, is a "crowning piece of impudence" and a "sublime piece of political nerve." Ryan has coupled with all the conditions of the law and the requirements of a candidate. His right to run is undeniable. Such expressions as those of our Democratic contemporaries have a mighty queer sound coming from a political organ which is continually complaining about certain alleged bossism in the Republican party.

FIRST DUTY OF OFFICERS.
Town and township officers should always bear in mind that it is their first and highest duty to protect the order and protect the citizen in his rights of person and property regardless of any personal prejudices or sympathies they may have. Any other rule of conduct is calculated to bring trouble upon officers and the government-units they represent in their official capacity.

Citizens, journeymen and wayfarers who are injured in their persons or estates through failure of the local government to give them the law's protection have a legal claim against that government for damages, and where official conduct is ill-treatment the damages are usually well laid on by the jury, and justly assessed too.

FIKE MEXICO.
Mexico has solved the problem of the high cost of living by lowering the wages of labor, but the solution of the problem is far from satisfactory. Expressed in dollars the cost of food and clothing is cheap as compared with the cost of such things in the United States, but by the same measure of value the earnings of labor in that country are a pittance compared with wages here.

A free country can be too free. Mexico is so free that nothing is safe except what is nailed down, and that only until some bandit can pry it loose.

The frantic efforts of the Democratic organs of Fayette county to place the blame for business conditions upon the Republican party would be amusing if the subject were not too serious for feeling. The Democratic party must be its own savior in this matter. What worries the Democrats more than anything else is the evident fact that the Republicans are going to get that seat very soon.

Torreson will have nothing on Tamplin.

Get a fine.

Candidate Apollo Mitchell Palmer has promised to support the Democratic ticket, but it has taken him a long time to say so. He must feel more confident that he did in the beginning. In the meantime, Candidate McCortrick has been making no promises. The last announcement he made on the subject was that he wouldn't support Ryan if he was nominated. This McCortrick seems to have a grudge against his ancestry. "No Irish need apply."

Get yourself a pair of overalls for tomorrow.

Some wonder is expressed why John William Dawson does not raid the Democratic primary, too. If he should get all the nominations for State Senator, his election would be unanimous. To be chosen unanimously would be a great honor, also a great convenience.

Living is cheap enough in Mexico, so for the matter of that is dying.

The New Jersey editor of the Bull Moose organ of Fayette county and the Indiana county editor of the Conneltsville organ of the Barefoot Brotherhood are having a desperate time explaining the defeat of that Democratic Congressman in New Jersey in support of whose election the whole weight of the Democratic administration was exerted.

On to Mexico!

For the first time in the history of Conneltsville the brass buttons will be seen regularly outside of the center of the town. The residence districts will have the interlocking with evidence, as they will also the proposition to install a police car system through the telephone exchanges.

Our West Virginia neighbors on the south seem to be unduly nervous over the coal rate to be charged by the Buckhannon and Northern railroad on coal to Lake ports. It might be a good plan to wait and see whether the rate is discriminatory before setting up a howl about it.

The closing down of the Central Pennsylvania bituminous coal mines will not help the Conneltsville coke trade either directly or indirectly. When the Conneltsville operators want to help themselves they have to do their own closing down, and sometimes they have to close down without helping themselves.

The Easter festivities at Roswell, Somerset county's strenuous mining town, were anything but peaceful.

Pottsville has at last become a city of the third class through the operation of a long justice. In the meantime, the people of Pottsville have almost changed their minds about the desirability of city government. It might be mentioned in explanation that the laws regulating city government have been changed in the meantime.

The trout season opened yesterday and the fish tales will soon have the sex stories rolling.

People will doubtless come miles to see that exhibition of a plowing which is to be pulled off in connection with Clean-Up Day. We feel safe in saying that it will be worth the price of admission.

The mayor has put on a sub.

"Custom makes the law," but at Davidson one of the honored Center customs was the means of fracturing the law.

The Pittsburg district miners may work if they like, but some of them apparently do not like.

The reformers of city government in the last Legislature evidently intended to place all appointments in the hands of the council, but it seems they missed one fat plum, namely, the position of master of weights and measures, and Mayor Marietta plucked and bestowed it with proper satisfaction.

If Company D continues to break all previous records it may be assigned to a position in the Mexican campaign.

It begins to look as if William Traversa Jerome was about to lose his best musical ticket.

The News alludes darkly to "ministerial ambitions." Perhaps it means the ambitions that have been wished on President Higgs.

Candidates are now filing on their ambitions. They will certify the cost after the primary.

Schwab says the steel business is in Dutch at South Bethlehem, but that the future is not without hope. Says it isn't. The country is tired of the Democratic present already. So soon yet it looks forward to Republican prosperity, ain't it?

The last train-jumper in this locality lost both legs.

MELBOURNE.

By GEORGE FITCH,
Author of "At Good Old Swash."

Melbourne, the metropolis of all Australia and about 5,000 miles of ocean on all sides of it, has about 700,000 people, which is doing very well for its size. In 1830 it had only 19 turf huts, being smaller than Chicago at that time.

Melbourne, however, had 11,000 people in 1841, which was about three times as much as Chicago could show. Then the high steamer lines stopped in and hand-dropped the Australian city, and while in 1856 it had 100,000 people, it could not keep up the pace.

Today Chicago is four times its size and Chicago visitors exclaim to the natives "What a beautiful little village you have here!" barely escaping with their lives shortly afterward. This shows what location will do. If Melbourne had chosen its location about 11,000 miles nearer the center of population it would now have 10,000,000 people and a large tourist trade.

Melbourne is situated on the east coast of Victoria, about 15,000 miles from London, which is related to it financially and politically. To reach Melbourne the American visitor takes a truck full of gold and six months off and sails southwest from San Francisco until the steamer runs out of coal. The city is the capital of Australia and will be until the new American designed capital is built in the up-country bush.

Melbourne is a very handsome city, situated on a large bay and a little river. In spite of the fact that it has about 3,000 miles of back yard, mostly unoccupied, it is a small city and has not followed Chicago's plan of annexing the territory as far as the climate and constitution will permit. Melbourne has wide streets, great public buildings, plenty of colleges and universities and some great parks. It also has rare courses, moving picture houses, street cars and skyscrapers. For this reason American visitors feel perfectly at home in Melbourne, and if it were not for the absence of base-

Barley escaping with their lives shortly afterward.

OPPORTUNITY AT HAND

Chance to Invest Idle Capital in Going
Local Concern.

Opportunity comes once in a life-
time. Idle money, like lazy men,
earns nothing. We all know that
money makes money. Even in the
savings bank your money makes
money. No one ever got rich by
sitting alone, unless there was left
him a big amount of money to start
with. The wealthy man of today are
those who have saved and invested
their savings where there was an
opportunity for large profits.

Those of us who desire to make
money must follow their example.
This is find an investment where they
have an opportunity to get large re-
turns, and where the element of risk
is cut down to the minimum. Few of
us have sufficient capital to finance
big undertakings such as the Young
Crystal Ice & Storage Company, so
a few of us must get together and

SPANISH LOUIS— A New Style Heel

On Dressy pumps and walking boots of dull kid and patent
leather. The most distinguished mode that the season will
see and one that is very popular at this moment.

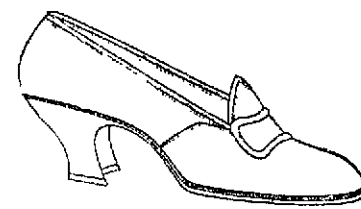

Let something new appear that
strikes a popular fancy and everybody
will want it.

In shoedom the "Thing New" is the
Spanish Louis heel.

A shoe heel will make or mar the ap-
pearance of a pretty bit of footwear.
The lines of the Spanish Louis harmon-
ize, perfectly, with the lines of the vamp
and any foot thus graced can't but be a
beautiful foot.

Even now we are told that orders for
shoes or pumps with the Spanish Louis
heel are uncertain of being filled. The
vogue for this style of footwear has cre-
ated a demand that the shoemakers
can't keep pace with.

We have full stocks of both pumps
and boots in this wanted mode. It is the
part of wisdom to make immediate se-
lection, if this style is your preference.
Later, we may have to tell you that cer-
tain sizes are out of stock.

THIS MODEL IN DULL MAT KID
OR PATENT LEATHER, A PAIR \$4

The pump is a model of
expert shoe making. A
fine grade of leather is
used and the smart lines
of heel and vamp, the nar-
row toe, the tongue effect
and buckle, all combine to
make a graceful summer
pump.

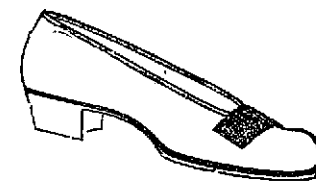

A higher-cut model, with
the Spanish Louis heel is
strictly bench made and of
highest grade leathers. This
pump fits perfectly and the
sides cling snugly to the
foot. Dull kid or patent
leather, a pair..... \$5.00

Stylish Footwear at \$3.50

Splendid made pumps with modified English
heels, as pictured; and with medium high and Cuban
heels.

Patent leather and dull mat kid.

Silk bows, or buckles of bright steel, black en-
amel and other effects.
Sizes 2 1/2 to 7; widths, B to D.

A Dress Boot with Spanish Louis Heel is here at \$5.00 a pair.

We know where this identical shoe
sells at \$6.00 a pair.

It is a beautiful model, slender and
graceful and strictly a dress boot of
exceptional charm.

One model is of patent leather, with
a queens cloth top; light soles, no tip
and buttoned.

Another model is all kid with a tipped
toe.
